Purple Playlist Player - Purple One Setup Guide

Important Note: We recommend uninstalling the app and reinstalling the latest version from the App Store to ensure you have the latest features and updates.

<u>Click here to download the Purple Playlist Player Again. Please make sure that</u> <u>you have uninstalled the older version.</u>

This fresh installation will help you fully experience all the improvements and new features of Purple Playlist Player, including seamless syncing across devices with the new Purple One feature.

With our latest iOS update for Purple Playlist Player, the new "Purple One" feature enhances your streaming experience. By registering an account, your favorites, recently watched shows, and preferences are synced to the cloud, so they're accessible on any device you log into. Follow these steps to get started:

Step 1: Open the App and Select Language

- 1. Upon opening the app, you'll be prompted to choose your preferred language. Select your language to continue.
- 2. Next, you'll see the Terms and Conditions (T&C) screen.
- 3. Review the T&C, then tap "Agree" to proceed.

Step 2: Register or Login Screen

- 1. After accepting the T&C, you'll see options to Register, Login, or Skip.
 - Tapping **Skip** will bypass registration and allow access to the **Login with Xtreme or M3U** option only.
